

Large Scale SNP Genotyping and Copy Number Analysis with Infinium® Whole-Genome Genotyping

Friday, February 9, 2007

PRESENTED BY:

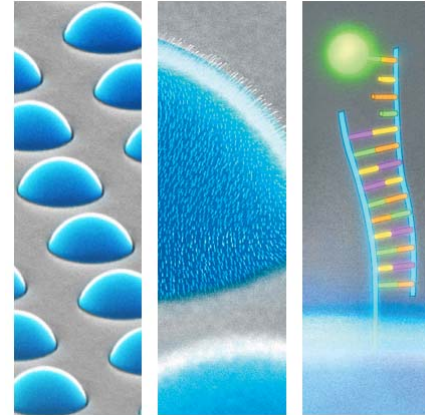

DANIEL A. PEIFFER, PH.D.

ASSOCIATE PRODUCT MANAGER

ILLUMINA, INC.

Topics covered include:

- Biochemistry and analysis principles of the Infinium assay.
- SNP selection for the HumanHap BeadChip product line
- Fundamentals of whole-genome SNP genotyping and data analysis.
- Copy number analysis in cancer and congenital samples.
- Analysis of copy number variation (CNVs).

VENUE:

Aspiration @ MATRIX Building, Level 2M

BIOPOLIS

SINGAPORE 138672

09:30 AM

Seminar

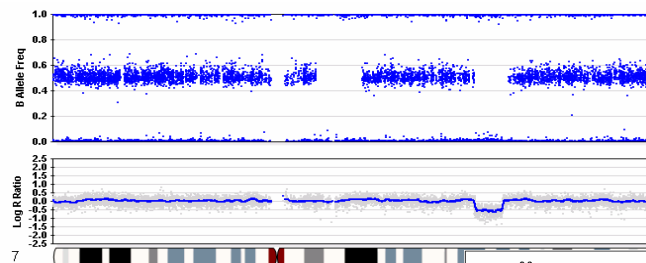

10:30 AM

BeadStudio Software Demonstration; Q & A Session

12:00 AM

End
